(2) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(a) of Annex III to this Regulation.

(3) The sampling and the analyses must be performed in accordance with the sampling procedures and the analytical reference methods set out in point 1(b) of Annex III to this Regulation.

(4) The analytical report referred to in Article 10(3) of this Regulation must be issued by a laboratory accredited for the analysis of PCP in food and feed in accordance with BS EN ISO/IEC 17025:2017 "General requirements for the competence of testing and calibration laboratories" (published by the British Standards Institution on 30 June 2018 (ISBN 978 0 539 01414 3) and available from the British Standards Institution <https://knowledge.bsigroup.com>).
